

**LED DRIVERS**

Soanar ELD24700 LED driver design was optimized to provide the constant current required to power the OSRAM OSOLON LED. The Efficiency of the Soanar LED driver has been recorded as high as 90%. This high efficiency results in minimal losses in the power conversion from AC to DC, meaning more light for your money.

- > Input power 220-240V AC 50/60Hz
- > Output 18-24V DC @ 700ma
- > AC & DC termination via 2-Pin Screw Terminals
- > Inrush current 8A (0.5ms)
- > Operating temp -10°C to +50°C, IP20
- > Non dimmable driver (Dimmable available June 2011)
- > Safety Standard AS/NZS61347-1, EN61347-1, IEC61347-2-13, IEC61347-1
- > EMC EN61547/EN55015 – Harmonics, EN61000-3-2,3, EN61000-4-2,3,4,5,6,8,11.
- > Safety and EMC Approvals for Australia, New Zealand, Singapore
- > Supplied with down light DL 90R and DL 90 G Series

To power the Ecolume DL128R, we turned to our partner Meanwell. The PLN-30-36-727 is an IP 64 rated LED driver providing a constant current of 700ma. With an Efficiency of 85% when converting from AC to DC.

- > Input power 90 – 295VAC 127-417VDC 50/60Hz
- > Output 25.2VDC – 36VDC
- > Non dimmable driver
- > Inrush current up to 40A
- > Operating temp -10°C to +50°C, IP64
- > Safety Standard AS/NZS61347.1:2007, IEC 61347.2.13:2006
- > Safety and EMC approvals worldwide
- > Supplied with down light DL 128 R Series

**THE ECOLUME DL SERIES IS POWERED BY OSRAM'S NEW OSOLON ThinGaN LED TECHNOLOGY.**

The Osolon SSL is manufactured using the latest chip technology, ensuring a high luminous efficacy. At an operating current of 350mA this light source achieves a typical brightness of 110 lm in ultra-white (5700 and 6500 K), with a maximum possible luminous flux of 130 lm. At a color temperature of 3000 K it achieves a typical efficiency of 75 lm/W and a brightness of 85 lm. OSOLON can support constant currents of up to 1Amp. The Ecolume DL operates at 700 mA producing an impressive typical brightness of 140 lm @ 3000K for each OSOLON ThinGaN LED.

Apart from distributing Ecolume's Lighting products, Soanar Lighting Solutions works closely with lighting designers and manufacturers to help them incorporate and optimise LED technology in their new designs.

Soanar Lighting Solutions also have a complementary range of products to offer lighting designers, including lamp holders and power supplies just to name a few.

### DL 90 G FEATURES

- > Energy efficient alternative to a halogen and CFL down lights
- > Powered by OSRAM OSOLON ThinGaN LED Technology
- > 894 LUMENS @ 6500K, 700 mA
- > Rated at 15 Watts
- > 3000K/4000K/6500K Color temperatures
- > Housing available in White and Satin Chrome
- > Interchangeable lenses supporting 4 Beam Angles
- > 50 degree beam angle (60, 40 and 24 degree available)
- > Cutout Hole Dimensions (Max 90mm, Min 83mm)
- > Low operating temperatures
- > Less carbon emissions
- > 50,000 hours plus
- > No ultraviolet emissions
- > Dimmable (with dimmable LED Driver)
- > IES photometric data available
- > 3 year warranty
